BRITAIN'S MONSTER CRUISERS.
Successful Launching of the Indomitable Yesterday.

LONDON, March 16.—The Indomitable, the first of the new class of armored cruisers, of which the Inflexible and the Invincible are also nearing completion, and which compare with the old armored cruisers as the Dreadnaught does to the older battleships, was successfully launched in the Clyde today. She is of 17,250 tons, is 330 feet long, exceeding the older armored cruisers by fifty feet, has turbine engines and is expected to attain the high speed of twenty-five knots per hour. The armament of the Indomitable includes eight twelve-inch guns, almost equalling the main battery of the Dreadnaught.

By special order of the admiralty the greatest secrecy is being maintained concerning the details of the construction of this, the largest cruiser in the world. The cost of the cruiser is approximately \$8,720,000. While ostensibly a cruiser, her actual status has not been definitely set forth and it is believed she approaches nearer to a battleship in armor and armament.

Sir William Pearce, chairman of the Fairfield company, the builders of the warship, presided at a luncheon after the launching. He said he was not permitted to give any information regarding the cruiser and that he was confident that the Indomitable, if occasion arose, would carve out for herself a record that would live in the annals of naval history.

The two sister ships will be launched within a fortnight.

It is estimated that there are probably 5,000 persons in Boston who daily play the market through bucket shops, and it is said that there are seventy bucket shops. C. W. A SQUARE DEAL

Is assured you when you buy one of Dr. Pierce's Family Medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formula are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests. While potent to cure they are perfectly harmless, even to the most delicate women and children.

NOT A DROP OF ALCOHOL enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine of proper strength. This agent possesses intrinsic medicinal properties of its own, being a most valuable anti-septic and anti-ferment, nutritive and soothing demulcent.

GLYCERINE PLAYS AN IMPORTANT PART in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, "heartburn," foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific FOR ALL DISEASES OF THE MUCOUS MEMBRANES, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages it is well, while taking the "Golden Medical Discovery," for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures even in the worst cases.

IN COUGHS AND HOARSENESS caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate hang-on, or chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

If the sweet taste of the "Discovery," caused by the glycerine, is disliked, a few drops of lemon juice, orange or lime juice, added to each dose will make it agreeable and pleasant and will not in the slightest interfere with its beneficial effects.

IT'S AN INSULT TO YOUR INTELLIGENCE for a dealer to endeavor to palm off upon you some nostrum of UNKNOWN COMPOSITION in place of Dr. Pierce's world-famed medicines which are OF KNOWN COMPOSITION. Most dealers recommend Dr. Pierce's medicines because they know what they are made of and that the ingredients employed are among the most valuable that a medicine for like purposes can be made of. The same is true of leading physicians who do not hesitate to recommend them, since they know exactly what they contain and that their ingredients are the very best known to medical science for the cure of the several diseases for which these medicines are recommended.

WITH TRICKY DEALERS IT IS DIFFERENT.
Something else that pays them a little greater profit will be urged upon you as "just as good," or even better. You can hardly afford to accept a substitute OF UNKNOWN COMPOSITION and without any particular record of cures in place of Dr. Pierce's medicines which are OF KNOWN COMPOSITION and have a record of FORTY YEARS OF CURES behind them. YOU know what you want and it is the dealer's business to supply that want. **INSIST UPON IT.**
